

5 days/nights Sema Ritual
Yeldeğirmeni Bungolow Evleri/ Kayaköy-Fethiye

07.11. 12.11.2024

*Love is a gift from Allah to mankind, implanted in the listening heart.
It must be nurtured & cherished, then the soul will sound and tremble - and we will become the seeing spirit.* Oruç Güvenç

Inspired by Hz. Mevlana under the pioneering of Dr. R.Oruç Güvenç this Sema Ritual has been held many times before in different places of the world for: 3, 5, 7, 16, 40, 66, 99, 114 days & nights. According to this spirit we would like to continue the ancient path. We welcome everyone who is sincerely interested in the Sema Ritual and encouraged to open their hearts to the flow of divine presence. No prior knowledge is necessary - the experienced ones will be pleased to pass on their knowledge.

Sema is schooling the ears of the heart

We live in times of great challenges. It is not easy to maintain inner peace and hope in the face of escalating violence, burning fields and divisions all over the world. Where can you find refuge in your inner and outer being?

In such times, it is essential to explore one's own personality in order to find and further develop the inner qualities of strength, inspiration, confidence, trust and devotion. On the bridge of life, people need freedom and openness for their creative processes to shape and master their lives.

Sema is a centering prayer of the individual in the community.

Spinning is a fundamental mode of movement in nature. From the planets in our cosmos to the elementary particles in atoms, everything around us is in constant rotation and development. In Sema we try to be more and more aware of the awakening of the divine energies and qualities. We can experience how our whole being can be centered on the unity of creation. Together we explore turning in remembrance of Allah.

Sema opens up a space in which souls can fulfil their need to strive for perfection and refinement. The human being's awareness of the divine in man becomes awakened in the Sema.

Music, poetry and dance may strike a "chord" deep within human beings. It gives us an idea of a home that lies beyond human structure - a desire to be one with life and to feel "at home".

Music is creative power in its own right, which is perhaps why it is so suitable for embracing and supporting people in their life processes in such a unique way, whether they are listening, making music themselves or composing.

Those who set out to discover their own reality, who search for the meaning of life in order to gain an ever more comprehensive understanding and clarity, will be ready for change. The dance and the song of life consist of change and constancy.

Let us encourage our hearts to embrace the flow of divine being.

The Sema event is scheduled to start in **07.11.2024 on 21.00 hr**, continues nonstop for 5 days & nights, ends **12.11.2024 same time as it started.**

The main purpose of this ritual is the continuation of the Sema Prayer. Musicians and Semazens will shift and try to ensure the continuity of Sema, music & Zikir in the Sema area for 5 days & nights.
